Re: FISU Healthy Campus launch

Dear Member Associations,

We are pleased to inform you that tomorrow, 12 May, we will launch the *FISU Healthy Campus* programme. This project, proposed and developed by FISU, is an initiative aiming to enhance students' and campus community's well-being in all aspects, such as physical activity and sport, mental and social health, nutrition, disease prevention, risk behaviour, environment & social responsibility and sustainability, and the corresponding cross-cutting management.

FISU would like to help universities embed health into all aspects of campus culture and provide concrete solutions to improve the lifestyle of the campus community. In addition to rewarding participating institutions with a certificate label, another huge benefit for universities throughout this programme is the opportunity to exchange knowledge, experience, and good practices with other universities worldwide, using a platform specially developed for *Healthy Campus*.

The cooperation with our Member Associations is decisive for the success of this project. We intend to help improve the overall well-being, health and sport within campus communities, and hope this reflects in a better and stronger national and international University Sport Movement.

FEDERATION

Through the *FISU Healthy Campus* portal (www.fisuhealthycampus.sport), universities can access the participation conditions and a detailed description of the project. All the information and news related to the programme will be updated regularly through the official FISU website (www.fisu.net), specific newsletters and our social media networks.

FISU will greatly appreciate the collaboration of all NUSFs to encourage and motivate higher education institutions in their countries to register for this programme. Over the coming days, we will contact you individually to schedule a meeting to discuss a strategic partnership for the development and communication of this innovative and exciting FISU initiative.

Should you have any additional questions, please do not hesitate to contact the Healthy Campus and Universities Relations Department (healthy.campus@fisunet) – FISU will gladly work with you to make sure this project is a success for everyone.

Yours sincerely,
